Subject: Golden Eagle and Snowdonia restoration project
Date: 17 August 2020 17:59:30

Dear [REDACTED]

Let me introduce myself. [REDACTED]

[REDACTED]
Recently I had a very useful discussion with [REDACTED] at NRW (copied in here).

I detailed my plans to restore a population of Golden eagles and mountain hares back to Snowdonia and to use this as a driver for large scale upland restoration to aid both flood mitigation and help meet climate change targets by increasing carbon sequestration.

I am in the process of writing the license and this is hoped to be submitted before the end of the year to allow enough time for review and then pending a positive outcome, eagles could be released next summer. [REDACTED]

[REDACTED]
It was suggested in the meeting yesterday that it would be useful for me to give a presentation to yourselves (and any other govt representatives you think appropriate) and key representatives from NRW about my plans.

I would like to do this at the earliest opportunity so if this is something you are open to then please let me know and I will send round a doodle poll to get a date in the diary.

Also just to let you all know there will be some press coverage tomorrow about the commencement of our public consultation work.

All the best

[REDACTED]
